## **AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **LISTING OF CLAIMS:**

- 1. (Currently Amended) A device for treating a packaging material (2) by means of UV radiation, the device comprising a source (6) of said radiation, and a screen (8) for protecting said source (6) and which is interposed between the source (6) and the material (2) for treatment; characterized in that wherein said screen (8) comprises a film of a polymer resistant and permeable to said UV radiation.
- 2. (Currently Amended) A device as claimed in Claim 1, <del>characterized in that</del> wherein said polymer is fluorinated.
- 3. (Currently Amended) A device as claimed in Claim 1, <del>characterized in that wherein said polymer is completely fluorinated.</del>
- 4. (Currently Amended) A device as claimed in Claim 3, characterized in that wherein said polymer is in the perfluoroalkoxy (PFA) class.
- 5. (Currently Amended) A device as claimed in Claim 4, <del>characterized in that wherein</del> said polymer is an MFA.

Attorney's Docket No. 034170-023 Application No. Page 3

- 6. (Currently Amended) A device as claimed in any one of the foregoing Claims, characterized in that Claim 1, wherein said film (9) is of a thickness ranging between 20 and 200 μm.
- 7. (Currently Amended) A device as claimed in Claim 6, <del>characterized in that</del> wherein the thickness of said film is selected between 40 μm or 100 μm.
- 8. (Currently Amended) A device as claimed in any one of the foregoing Claims, characterized in that Claim 1, wherein said screen (8) comprises a pair of substantially rigid grilles (10) between which said film (9) is supported.
